## About SCS

Sports Coach Systems are located near London and are now recognised as the world's leading manufacturer, of Golf Simulators. Formed in 1992 the company constantly manufactures and develops, its own hardware and software. Constantly updating the simulation software, the course library and the detection software technology, with free of charge downloads to its clients, via its FTP site.

It has been voted the world's most advanced golf simulator, which is constantly updated by its programming team. Clients own designs can be incorporated as well as having the most comprehensive course library in the world. Sports Coach is represented in the UK, Europe, Far East, Middle East, USA, Canada, Australasia, Japan and South America.

## Return of Investment

Sports Coach Simulators is especially designed to generate the maximum income, for clients 12 months of the year. Game play and virtual practise is popular out of season, whilst the teaching, the contests and custom fitting are popular during the golf season. "On the best days we have had 12 hours daily usage, on the golf simulator" Pasi Kuuti, MD of Leaf Arena, Finland.

Switch: Between Three Individual Screens To Three Combined Screens

## Online Game Play

Golfers can easily contest via the internet, multiple online tournaments. Golfers are also able to play simultaneously the same game with other golfers, via the internet. The Live Leader board is proving very popular with indoor golf facilities, that are able to contest live games over several golf simulators and many players.

## GPS Surround Academy

The Ultimate Lesson is now possible by using the GPS Surround Academy, linked in with the superb GPS Golf Simulator and any teaching programs, such as digital video etc. During a lesson on a simulated version of the golfer's own course, the professional can highlight the actual shot performance, compared with the actual swing performance, using digital video, revolutionising the teaching experience for golfers. After the lesson it is a simple process to switch the simulator back to a 270 degree state of the art golf simulator. The GPS Surround Simulator is without any doubt the best visual experience of any golf simulator, with seamless blending of the three projected images.

## Virtual Graphics

The GPS Software engine has the largest amount of features ever created, in a golf simulation program. This program has the simplest navigation, with many user friendly features linked to touch-screen technology. It is very easy for golfers to enter and save their defined details for name, handicap etc. As well as selecting which course to play, holes, to play and style of gameplay.

During game play helicopter flybys occur automatically, before each hole commences. The flag location appears automatically before each player's shot, so the golfer knows exactly where to hit their next shot. When reaching the green a target arrow appears, enabling easy alignment to the hole. After each hole the scorecard will appear briefly, to show each player's scores.

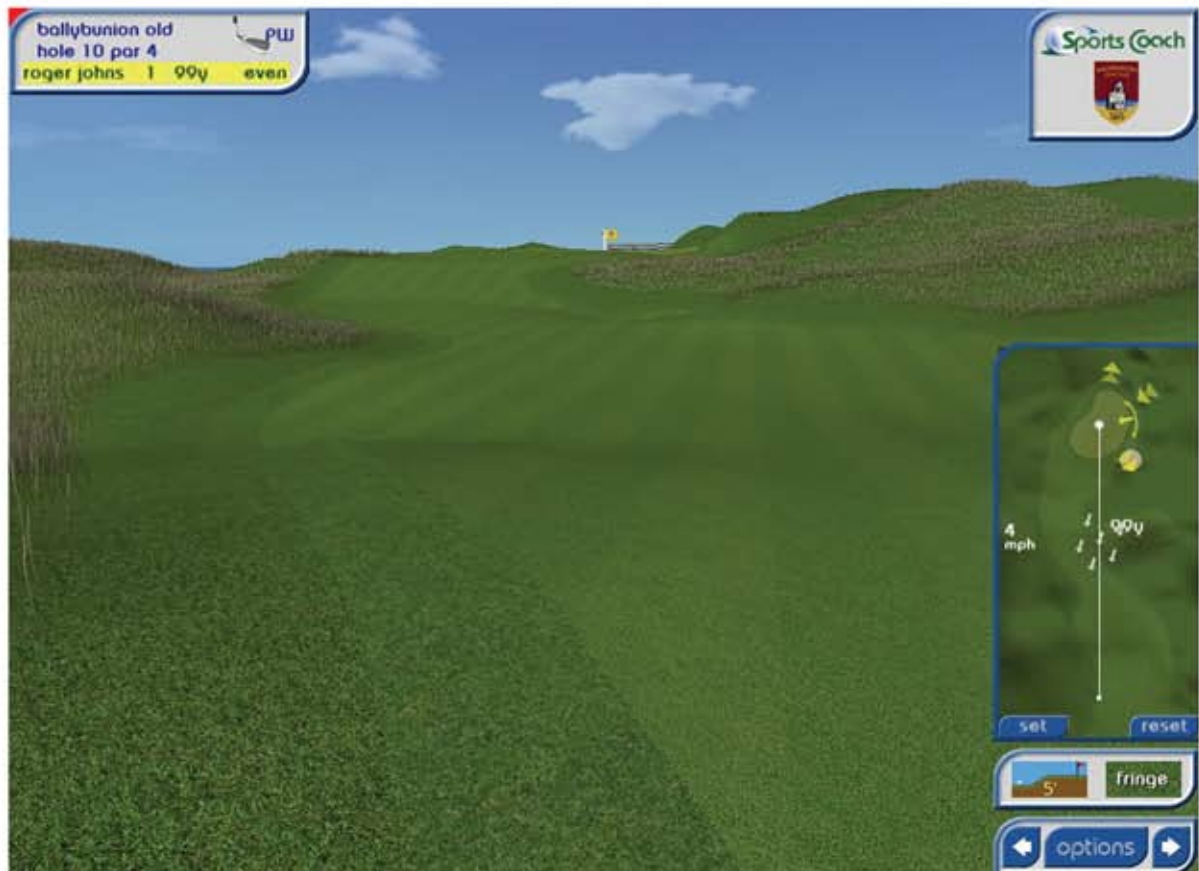

Features that can be used during the game include reverse replay, forward replay, overhead replay, helicopter flybys, green stimp speed, weather conditions and water reflections. Whilst the wind not only moves the leaves in the trees, it sways the bushes and even the long grass.

GPS High Definition Graphics, bring a new meaning to the word "Realism". Never before have golf courses been re-produced, so accurately that it's difficult to separate the real course, from the simulated course. The 3.5D Rendering is of such high quality, that objects such as buildings, trees, plants, fauna, grasses are complete realistic representations of the original.

Abu Dhabi Golf Course

## Silver

Ra St. Omer, Abu Dhabi, Ballyunion Old, Barseback, Belfry Brabazon, Belfry PGA National, Bermuda Dunes, Calcutta Lakes, Carnoustie, Castello di Tolcinasco, Celtic Manor 2010, Celtic Manor Monty, Champions Gate, Coeur d'Alene, Cog Hill Dubsdread, Crans-sur-Sierre, Doha, Doral Blue Monster, Doral Great White, Emirates, Fernandez, Finca Cortesin, Fontana, Gut Kaden, Gut Larchenhof, Halmstad, Innisbrook Copperhead, Innisbrook Island, Java Flows, Kennemer, Killarney Killen, Kingsbarns, Kuala Lumpur, Loch Ernie, Old Head, Patagonia, Monterey Bay, Monterey Beach, Monterey Hill, Pearl Valley, PGA National, Poppy Hills, Port Aventura, Port Royal, Pravets, Redstone, Riffa Views, Royal Blackpool, Royal Fife, Royal Morris, Royal Swilken, Samba Falls, Sherwood, Sheshan, Tanah Merah, Tralee, Turnberry, Vilamoura Victoria, Warwick Hills and Wentworth West.

## Bronze

Abegweit Crossing, Amber, Amendoeira Faldo, Amendoeira O'Connor, Bro Balsta, Carrig Glas, Chinook Cascadia, Cougar Ridge, Devils Garden, El Cortante, English Oaks, Estonian Country, Fontainebleau, Foothill Lakes, Georgetown Inlet, Grief Point Meadows, Hadley Common, Hanauma Cliffs, Heretic, Heron Pointe, Hollow, Howatt Gardens, Klawhammer Crag, Kuala Views, Kungsangen Kings, Linna, Lynx, Maori Heights, Manoir Richelieu, Oxie, Pine Springs, Preserve, Quinault, Ranmore Downs, Renaissance, Richland, Russet Hills, Sharjah, Spruce Plains and Tempete.

## Virtual Contests

Competitions have never been easier to setup and run, using any of our featured simulated courses. Using par 3's for nearest the pin contests; any shot hitting the green, is automatically reverse replayed. Longest drive contests on Par 4's and 5's, is also automatic reverse replay, when hitting the fairway over 200 yards. The leader board automatically appears after each shot, displaying your sponsors logo; putting contest and hole in one competitions can also be easily organised.

## Virtual Range

GPS Virtual Ranges are designed to give golfers the perfect practise facility, on 12 famous golf holes, driving range and unique short game academy. Golfers can hit from a choice of practice positions, to one of five different flag positions on the green, using the interactive map.

Giving golfers and professionals the ability to practice and fully analyse shot performance, from the driver to the putter. This data can be utilised to improve swing technique, as well as finding the most suitable clubs for the golfer, based on fact rather than opinion. The custom fitting feature is without doubt, the world's most comprehensive custom fitting facility, being able to compare branded and unbranded clubs together.

## Measured Accuracy

The GPS Golf Simulator is the world's most accurate ball flight detection system. The 3D High Speed Cameras accurately measure the golf ball for 3m of ball flight and the golf club for 0.5m before impact, from two separate 90 degree angles.

Displaying after each shot extremely accurate measured performance data for ball speed, club speed, swing path, horizontal launch angle, club face angle, vertical launch angle, back spin, side spin.

Enabling very realistic calculated performance data for Carry, Distance, Roll, Elevation, Shot Height and Hit Factor. Ball Flight is so accurate that every type of golf shot is very realistically represented, such as fades, slices, draws, hooks, straight and even shanked shots.

Course Library

Sports Coach's Golf Course Library is the most comprehensive ever created, featuring over 156 golf courses.

Working closely with various prestigious organisations such as the PGA Tour, the European Tour, the R & A, the PGA, the PGA of America and the US Golf Association, ensures the continual enhancement of the course library, to include the majority of famous tournament courses. Focusing on courses used for the Open Championship, US Open Championship, PGA Championship, PGA Tour, European Tour, Ryder Cup and the Solheim Cup.

The PGA European Tour schedule regularly uses Aa St. Omer, Abu Dhabi, Barseback, Belfry Brabazon, Carnoustie, Celtic Manor 2010, Crans-sur-Sierre, Doha, Doral Blue Monster, Emirates, Fontana, Gut Larchenhof, Hong Kong, Huntingdale, Kennemer, Killarney, Kingsbarns, Kuala Lumpur, Leopard Creek, Munchen Eichenried, Pearl Valley, Real Seville, Royal Johannesburg, Saujana, Sheshan, Turnberry Allisa, Vilamoura Victoria and Wentworth West.

While the PGA US Tour schedule regularly uses Bermuda Dunes, Brown Deer Park, Champions Gate, Cog Hill Dubsdread, Doral Blue Monster, La Costa, PGA National, Poppy Hills, Port Royal, Innisbrook Copperhead, Redstone International, Sherwood and Warwick Hills.

Sports Coach also offer beautiful and world renowned courses, such as Banff Springs, Ballybunion Old, Cape Kidnappers, Chateau Whistler, Cover d'Alene, European, Kauri Cliffs, Lahinch, Old Head and Tralee. Golf Resort Developers are offered a service by Sports Coach, to simulate their courses for marketing purposes, so ensuring another avenue of simulated courses

Courses available and future courses are constantly increasing, for the very latest course library, visit our website [www.sports-coach.com](http://www.sports-coach.com)

## Golf Simulators Available

Europe's best selling simulator has a traditional simulator layout. All Simulators can be Custom Designed to meet your own specific cosmetic and dimensional requirements. The standard size is 4.5m wide x 5m deep x 3m high, but all dimensions can be customized to meet the actual available area. If your swing is comfortable, then the simulator can be custom designed. All your opinions on simulator cosmetics can be met, using an array of materials and color schemes. Whether the simulator walls are wooden fabric, tensioned pvc or even an existing simulator booth, Sports Coach offer a free of charge cosmetic design service.

### Platinum

3D Camera Technology, With 120 Golf Courses.

Comprises 3D high speed camera technology, real putting, 3 xga projectors, computer system, gps surround program + 120 golf courses, golf range, multi surfaced mat, golf mats, simulator cage with screen, grassed flooring, lighting system and framework.

The perfect solution for indoor golf centres, where all data from the ball and club performance, is required. Surround simulation, gives the very best possible experience.

### Gold

3D Camera Technology, With 120 Golf Courses.

Comprises 3D high speed camera technology, real putting, xga projection, computer system, gps simulator program + 120 golf courses, golf range, golf mats, cage, screen, grassed flooring, lighting system and framework.

The ideal indoor golf centre solution. Using our 3D high speed camera technology.

Upgrades available include, other sport simulators in the future. As well as future golf courses being developed.

### Silver

3D Camera Technology, With 40 Golf Courses.

Comprises 3D high speed camera technology, real putting, xga projector, computer system, gps simulator program + 40 golf courses, golf mats, cage, screen, grassed flooring, lighting system and framework.

Recommended solution for any indoor facility. Using our 3D high speed camera technology.

Upgrades available include golf courses. As well as future golf courses being developed.

### Bronze

Overhead Camera Technology, With 40 Golf Courses.

Comprises overhead high speed camera technology, real putting, xga projector, computer system, gps simulator program + 40 golf courses, golf range, golf mats, cage, screen, grassed flooring, lighting system and framework.

An affordable solution for any indoor facility.

Upgrades available include, golf courses. As well as the side high speed camera.

## Putting Simulator

The GPS Putting Simulator offers the very best introduction to the game of golf, for non golfers. Everyone can putt a golf ball, but not everybody has the ability to swing a golf club. Giving the non golfer the confidence to play golf, featuring Adventure Golf, Fantasy Golf and Clinical Golf. This very affordable simulator, is perfect for any entertainment or golfing facility.

## Outdoor Simulator

The world's first inflatable Golf Simulator which can be playable within an hour, of arriving at a venue. Perfect for golf tournaments allowing the public to play the same signature hole as the professionals, in the tented village. Often used as a promotional tool for outdoor road shows. This construction saves time and money on the normal setup charges, so that the hire costs, are easily within any corporate budget. Can easily be branded or personalised for special clients.
