

Performance Golf Studio

Performance Golf Studio, precision with experience, using the ultimate in technologies. The club fitting staffs are highly trained PGA professionals, who have extensive swing coaching knowledge, as well as a unique understanding of club components and fitting. They recognise swing patterns and golfers own unique bio-mechanical movement which affects the strike and ball flight. Using their in depth knowledge to improve golfers overall game for the future, with expertly built golf clubs, when using ball flight simulation software.

The indoor range facility allows the pros to see golfers overall shot pattern as well as giving, all relevant information in terms of club speed, ball speed, launch and spin. If swing technique needs some attention; the PGA professionals are experienced enough to highlight these changes using their high speed video systems before recommending a golf club change. The high speed camera bay also highlights swing characteristics and can explain why certain types of head and shaft combinations will produce better results than others.

Body Centre

Body Center situated in Finland, have a unique way to encourage golfers to become gym members, with fitness for golf. They have installed a GPS Golf Simulator, into their studio so that golfers can work review increased performance after working out. The gym offers various exercises, circuit training combined with fitness equipment and weights. Golfer's use the gym regularly to improve their muscle strength, muscle tone and muscle memory. Golfers gain additional strength to increase their club head speed and ultimately their distance off the tee. The Body Center is also helping to rehabilitate injured golfers, generating extra lessons for instructors.

Golf Messe

Golf Messe was recently held in Zurich, to enable the public to compete in a nearest the pin competition. Playing golf in Switzerland, has been particularly difficult during this harsh winter. Golfers were very impressed with the quality of the graphics and large crowds gathered throughout the show. Several professional golfers were on hand to test out the accuracy of the 3D High Speed camera technology, they were more than satisfied. There will be several indoor golf academies, that are due to open during 2011 and the GPS Platinum Golf Simulator will be recommended, by the PGA professionals for these facilities.

Heron City

☆☆ HERON CITY ☆☆☆

Heron City is located in the centre of Stockholm, in Sweden. Home to the largest entertainment facility in Scandinavia, with 18 cinema screens, 20 bowling lanes, 45 arcade games and 5 golf simulators. O'Leary's Sweden's fastest growing restaurant chain, franchisee the bowling and golf centre, encouraging players to have a beer, eat some food and play golf, in an enjoyable relaxed atmosphere. This is Stockholm's largest indoor golf centre, with the most up to date and accurate technology available. They have installed 4 GPS Gold Simulators and 1 GPS Platinum Golf Simulator, enticing golfers to play golf on any of 100 world famous courses. The centre is already proving to be very popular with weekly tournaments, hotly contested.

Himmerland Golf & Country Club

HIMMERLAND GOLF & COUNTRY CLUB

Himmerland Golf & Country Club has invested in a Sports Coach indoor 3D Golf Simulator. The Simulator, is a Platinum surround golf simulator, that is to say there is a visual image on 3 screens (270 degrees), with the opportunity to play 100 of the best golf courses in the world. Himmerland have done extensive research and decided that this was the best simulator, which can be purchased on the market today and the first of its kind in Denmark. The simulator is being used by their members to give added value to their club membership. Allowing members to play famous golf courses, whenever the weather is not ideal, for playing outside. The course fully intends to have their golf course simulated later this year, so the members can also practice and play their own course, year round.

Virtual Data

Virtual Data enables professionals to easily compare up to five practice sections simultaneously. Comprehensive analysis of performance data, during the current and section history, so that the golfer gets a better understanding of their own shot performance. PGA Professionals are able to give a much more in depth lesson, on shot performance than has previous been possible. Whilst the pupil is able to instantly see performance improvements, on screen throughout the lesson. Ideal for European Tour Players who wish to practise and play tour courses prior to events, as over 27 courses of the 2011 European Tour schedule, has already been recreated.

The screenshot shows the Sports Coach interface. On the left, a golf course simulation is visible with a data table for a driving range shot. The table has columns for distance, carry, ball, club, face, path, back spin, v.launch, and hits, with sub-columns a, b, c, d, e. On the right, a 'select or create a player' window is open, showing a list of players (andy, fred, harry, john, marcus, mike, steven, surr, trevor, zxcv) and a session history table with columns for date, time, and player name.

distance	a	b	c	d	e
carry	170	148	171	160	152
ball	120	121	122	121	122
club	99	99	99	99	99
face	0°	0°	0°	0°	0°
path	in 3°	in 4°	out 3°	in 2°	out 1°
back spin	2107	1981	2220	2050	1997
v.launch	9°	9°	9°	9°	9°
hits	1	1	1	1	1

Club Fitters benefit from being able to bring up golfers previous custom fitting sections, to show how latest clubs, can now out performs previous technology, that the golfer has tested. Data basing golfers shot performance and custom fitting sections, has never been previously possible; the "Ultimate Golf Academy."
