Latest Developments

Park Hotel Stuttgart

Located close to Stuttgart airport, is the Park Hotel, which is used extensively by business travellers. Who use the touch screen interface to commence gameplay, with their business partners, colleagues and friends, the experience is proving to be a great way, to relieve the stress of work and travel. As the GPS Platinum Golf Simulator, offers a 270° surround image an unbelievable realistic experience, with instant digital swing analysis and shot performance, on the three projected screens. Guests are already commenting on the impressively accurate measurement for the ball flight and the putting. Other hotel facilities include wellness, spa, gym, havanna lounge and interestingly its own brewery.

Auriga Hotel Austria

Recently opened in the ski resort of Lech am Arlberg, in Austria, is the Auriga Hotel. The golf lounge with golf simulator is the highlight in the Auriga. Enabling golfers to pursue their favourite hobby even in winter and to train for the next summer season. An exciting alternative to skiing in case of bad weather - but also in between, you can improve your technique and relax in an exclusive golf atmosphere. This facility is proving to be very popular addition to the already extensive list of activities for hotel guests, such as lagoon pool, sauna, fitness, wellness, spa and billiards.

Padel Sports Estepona

Padel n Sports is a new and unique concept in southern Spain, combing the latest racket sport padel, with two indoor golf simulators and a restaurant. Giving extensive lessons in both sports targeting adults and children alike, who wish to improve their technique with lessons or just want to play for fun. Whether they are beginners or competitive players, they will analyze golfers, swings, posture, movement and stance will show even the smallest corrections needed, too drastically improve the golfers game. Padel n Sports also have a bar/restaurant where all the family can meet up. By combining both up and coming indoor sports, this leisure facility is generating a new type of clientel, that are enjoying both sports.

Dravin Golf Hall

Dravin Golf & Country Club based in Finland, have treated their members to a golf hall, so that the membership can continue to play and practise throughout the winter. As the golf course is normally closed for 4 to 5 months of the year, due to heavy snow fall. Having their own golf course simulated and added to the GPS Golf Simulator, has proved to be very favourable with the membership. Ensuring that members can still play regularly on the golf course, as well as have on-course lessons with their golf professional. In the golf hall, golfers can also utilise the other practise facilities, such as driving range, putting green and chipping area, to hone their game during the cold winter months.

Golfin The City

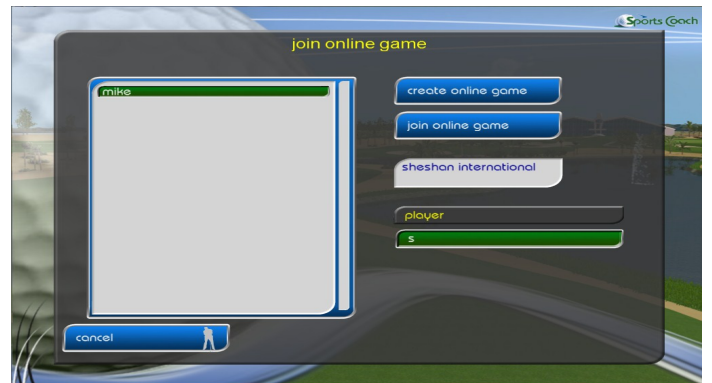

The first unmanned golf facility in Holland, located in the Hague. Enabling golfers to be able to play 7 days a week, 24 hours a day, on this professional golf simulator system. Golfers simply complete registration to the centre, then book online and pay, for their tee times. Up to 4 golfers can play together through the booking system, enabling lots of fun for all concerned. With the unique user friendly navigation, has ensured golfers regularly return for more games of golf. The building dates back to 1892, when it was the former stables of the Royal Guard.

GPS Current Developments

Sports Coach has been busy enhancing the GPS Live game functionality with Live Camera Interaction, so golfers can actually see and talk to each other during their Live Games. This in essence gives golfers a lot more fun discussing each other's golf shots, complete interaction with one's golfing buddy, anywhere in the world. To be able to see each other golf shots and talk in a live environment, is once again a world's first on the GPS Platform. Joining Online games, can easily be setup within the program, allowing golfers of all ages and both sexes, to interact and enjoy their game.

Remote Centre Operation has just been released, the first phase being the operator can commence games, on all the networked golf simulators. The second phase currently under construction will allow the operator to control the hourly gameplay on each simulator, the time golfers have paid for. In a similar manner as to how indoor bowling centres, currently operate. As well as booking information, so that centre management may get, the daily usage reports for each of the golf simulators off site.
